			\$1,875.00

November 20, 2024 — The very day Supervisor Hibbard took office at noon he immediately contacted the township attorney. Within his first 24 hours in office, township billing records reflect \$1,750.00 in legal charges.

During that same period, there is no record of outreach to township committees, boards, or other resources that routinely support township operations.

From the outset, this pattern reflects a leadership approach that turned first to legal counsel rather than collaboration with established township governance and community resources.
